Product Category Sales Performance

PRODUCT CATEGORY	TOTAL GENERATED REVENUE (\$)	RELATIVE CONTRIBUTION	STRATEGIC SALES SEGMENT FOCUS
 Clothing	\$1,313,474.36	26.17% SHARE	Core Volume Driver - High turn rates and organic expansion
 Furniture	\$1,260,517.69	25.11% SHARE	High Ticket AOV - Steady regional wholesale configurations
 Electronics	\$1,243,499.64	24.77% SHARE	Premium Channels - Technical integration and high baseline values
 Food	\$1,201,773.54	23.95% SHARE	Essential Retention - Consistent transactional activity base

Key Insight: Revenue distribution exhibits remarkable parity among segments, with less than 2.3% variance separating the top-performing Clothing group from Food.

Regional Revenue Distribution

The North Territory continues to act as the primary anchor with \$1,369,612.51 in total generated value, while the South shows steady potential representing 23.0% of the overall enterprise mix.

Monthly Revenue Trend Timeline

Timeline Review: Steady sales run rate between \$350k and \$450k per month is maintained before entering the traditional end-of-year seasonal transaction dip.
